St. Louis NTMA Chapter admires your vision to pursue a career in manufacturing!

Scholarship applications are being accepted for the Fall 2024/Spring 2025 semesters. Applications must be completed online. All supporting documents can be completed online here (preferred). You can choose to email scans of supporting documents instead or mail them to the chapter office. (More instructions on those options in later sections.)

Completed applications and all supporting documents must be received by Sunday, March 31, 2024 at midnight.

Your application is complete ONLY when we have received the application and ALL supporting documents. You will receive an email confirmation of receipt. It is your responsibility to be sure everything has been received by the deadline. If you don't know or are not sure we have a document, email the Chapter office.

Scholarship Requirements

1. APPLICATION FORM submitted online or may be mailed.
2. LETTERS OF RECOMMENDATION (minimum of 2) preference of at least one letter being from an NTMA member company, an employer, or an associate member company. The second letter can come from an employer, a high school or post-secondary school or other various sources (non-manufacturing employers or volunteer/service organizations, scouts, etc.). You can include as many letters of recommendation as you wish. We prefer .pdf or .jpg of letters and the letter must be signed by recommender. Multiple letters are accepted and encouraged.
3. OFFICIAL TRANSCRIPT Applicant must submit an official transcript from his/her school. This can be sent directly from the school (prefer electronic or .pdf that shows certification from the school). You will need to contact the administrative or registrars office and request an official transcript. If you are currently in high school, a high school transcript would be appropriate, but if you have college credit courses, please provide both. Those enrolled in college should provide their college transcript. We need a transcript, not an online printout of grades. An unofficial printout of grades from the internet alone will not be accepted. Transcripts can be emailed/mailed by the school, or you can send them yourself. (address details below)
4. CURRENT RESUME Can include employment, internships, co-op participation, as well as volunteer/service/leadership experience.
5. MINIMUM OF SIX (6) CREDIT HOURS commitment in an academic year in manufacturing, industrial technology or engineering program.
6. MINIMUM GRADE POINT AVERAGE OF 2.5 on a 4.0 scale or its equivalent.
7. RESIDENCY REQUIREMENT - Applicants must be from the St. Louis Chapter membership geographical range (southwestern, west-central or central Illinois or the western half of Missouri) or be attending a school within this area.
8. AGE REQUIREMENT – Applicant must be 18 years of age at the start of class and be eligible to work in the United States of America.
9. PAST SCHOLARSHIP APPLICANTS and/or recipients may submit an application for a grant in succeeding years.

All supporting documents can be submitted online within this form when prompted below (preferred). However, you can choose to email scans of supporting documents instead or mail them to the chapter office. Submit emails to info@stlouis-ntma.org before the deadline of March 31, 2024 at midnight. If you choose to mail must be postmarked no later than March 31, 2024 to St. Louis Chapter NTMA, 101 W. Argonne, #137, St. Louis, MO 63122 (if you deliver this in person, this address is a UPS Store in downtown Kirkwood).

Contact the SLT NTMA Chapter Executive with any questions:
